

# Appendix C

## Comparison of Effluent Concentrations of Additional Metals

Graphs comparing effluent concentrations produced by several types of treatment BMPs for TSS, Nitrogen, Zinc, and Fecal Coliform, are included in 5.3.1. Graphs for other metals and phosphorus are provided below.

Appendix C  
 Comparison of Effluent Concentrations of Additional Metals

Dissolved Copper in Effluent

Dissolved Copper in Effluent (log format)

Total Copper in Effluent

Total Copper in Effluent (log format)

Appendix C  
 Comparison of Effluent Concentrations of Additional Metals

Dissolved Lead in Effluent

Dissolved Lead in Effluent (log format)

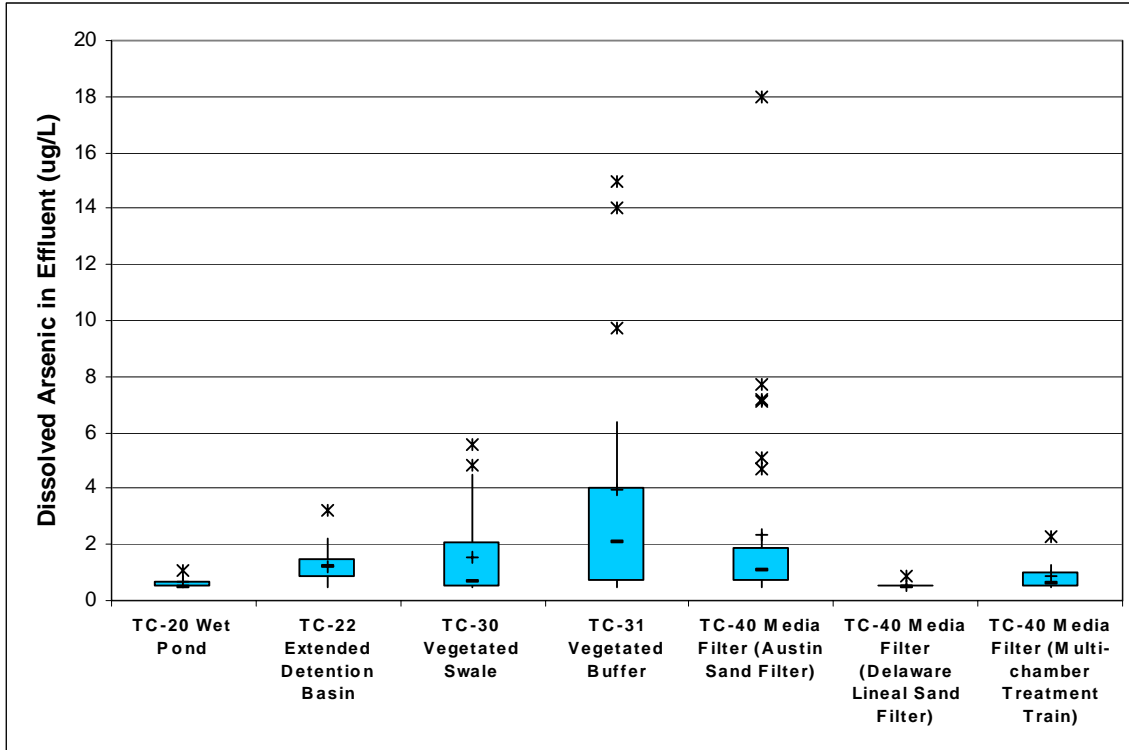

Total Lead in Effluent

Total Lead in Effluent (log format)

Appendix C  
 Comparison of Effluent Concentrations of Additional Metals

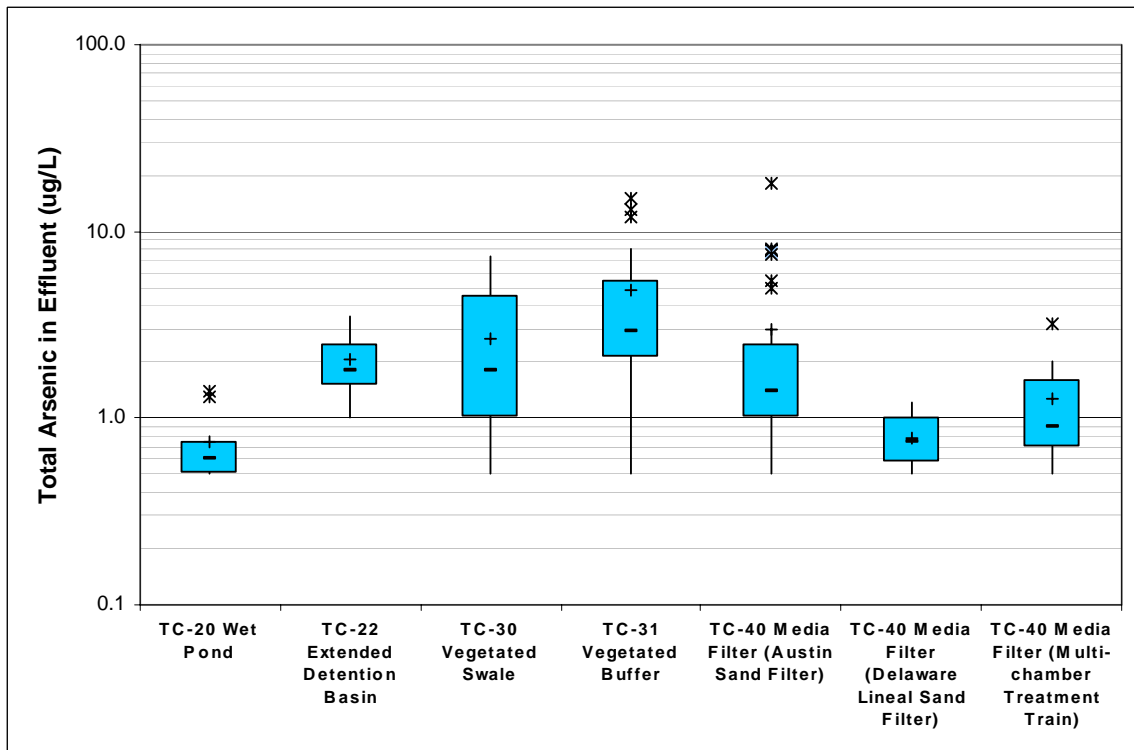

Dissolved Arsenic in Effluent

Dissolved Arsenic in Effluent (log format)

Total Arsenic in Effluent

Total Arsenic in Effluent (log format)

Appendix C  
 Comparison of Effluent Concentrations of Additional Metals

Dissolved Cadmium in Effluent

Dissolved Cadmium in Effluent (log format)

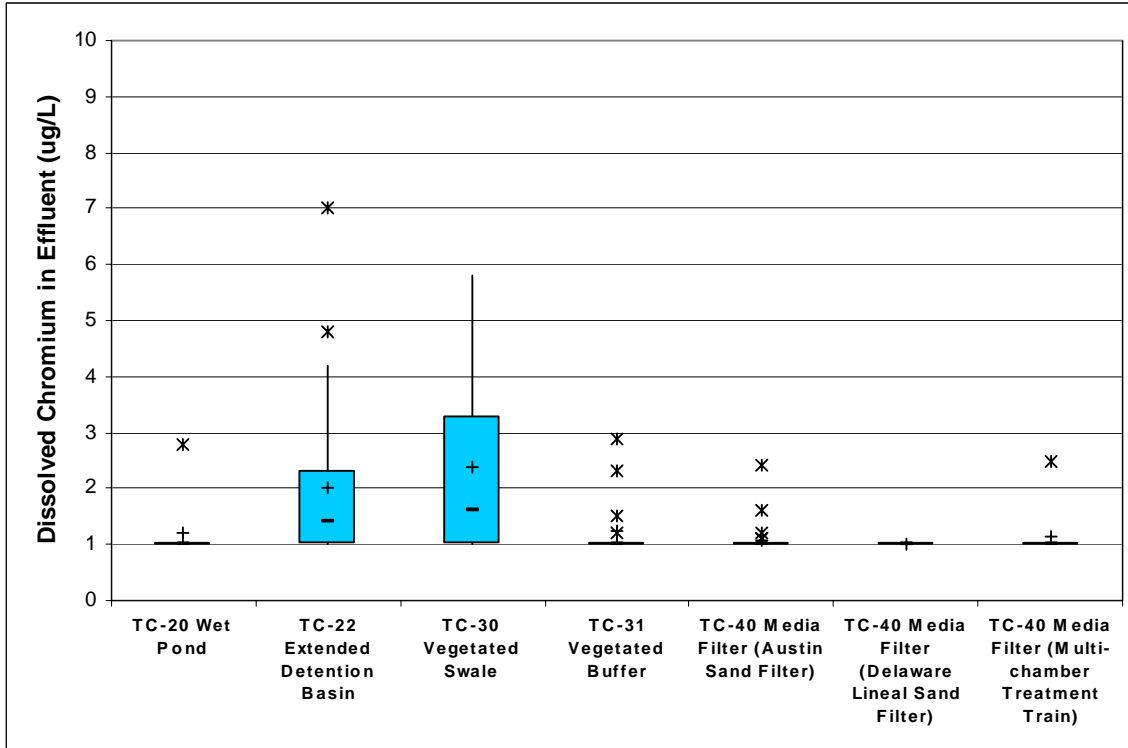

Total Cadmium in Effluent

Total Cadmium in Effluent (log format)

Appendix C  
 Comparison of Effluent Concentrations of Additional Metals

Dissolved Chromium in Effluent

Dissolved Chromium in Effluent (log format)

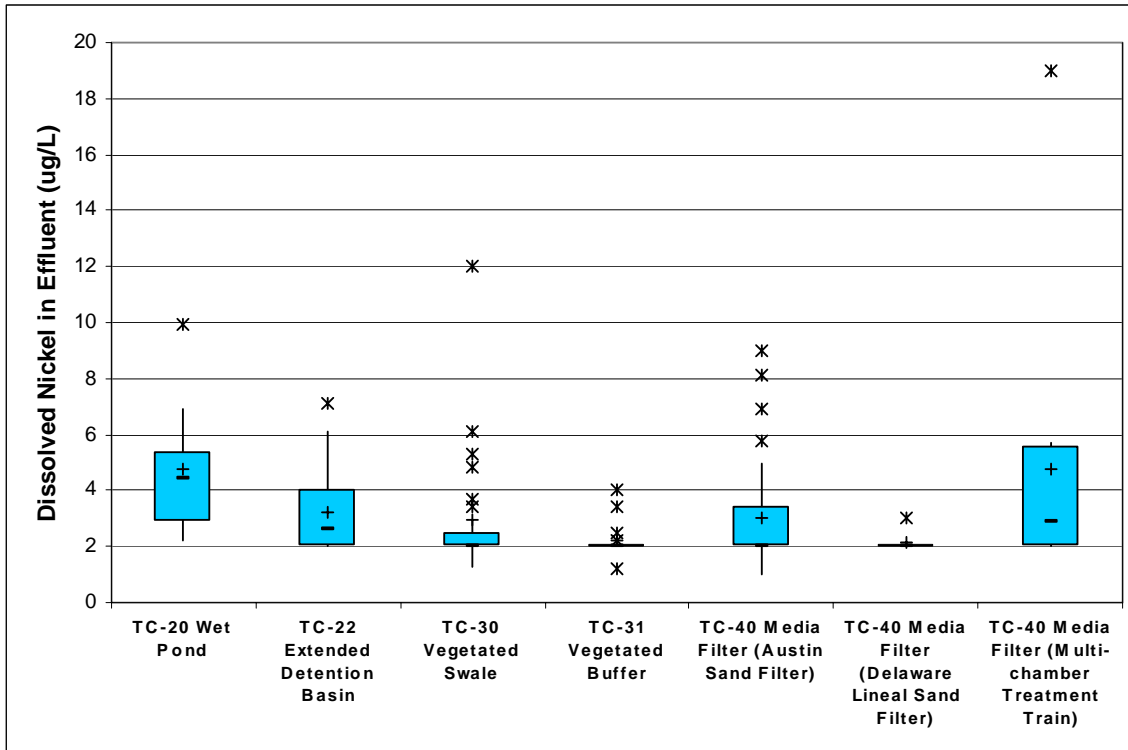

Total Chromium in Effluent

Total Chromium in Effluent (log format)

Appendix C  
 Comparison of Effluent Concentrations of Additional Metals

Dissolved Nickel in Effluent

Dissolved Nickel in Effluent (log format)

Total Nickel in Effluent

Total Nickel in Effluent (log format)

Appendix C  
 Comparison of Effluent Concentrations of Additional Metals

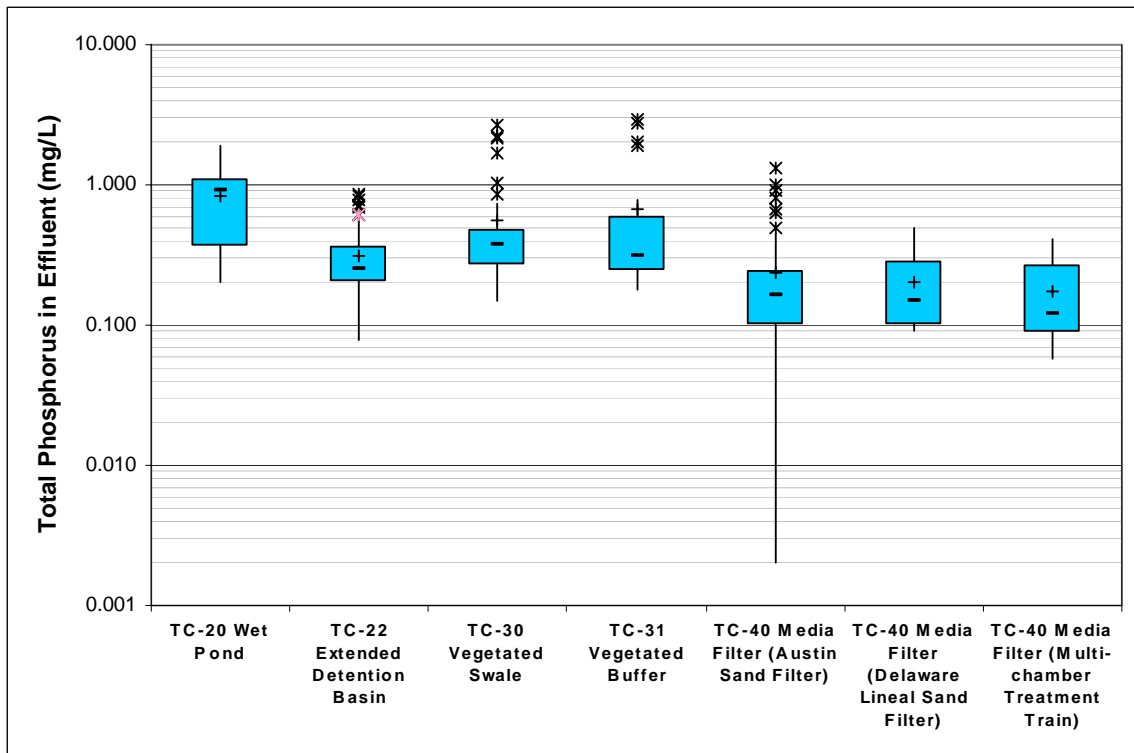

Dissolved Phosphorus in Effluent

Dissolved Phosphorus in Effluent (log format)

Total Phosphorus in Effluent

Total Phosphorus in Effluent (log format)
