Please join us for the CASQA 2020 Virtual Conference Networking Events. All conference registrants are welcome.

Here are a few tips to help you prepare for the events so you can have more time to interact with colleagues and fellow conference attendees at the receptions.

- 1 Click for the [checklist](#) to get your computer ready before using Remo (the networking events platform), also:
 - Using headphones or earbuds are recommended, but not required.
 - If your company's firewall prevents access to outside websites, connect to a mobile hotspot for internet, or consider using another device, such as your personal home computer. Mobile devices are not supported.
 - Register for the event with the same email address used to register for the CASQA Virtual Conference.
 - If you use an ad pop-up blocker on your browser, learn [how to disable it](#) when in Remo to see all the features.
- 2 Don't miss the [quick tutorial video](#) (included in the checklist above) on how to use Remo before the event. Note, if you do not have time at the moment, the video will be posted on a billboard at the events. Please turn off your microphone while viewing the video at the live event, so the other people at your table will not hear the sound.)
- 3 At the first networking event, you can set-up your profile as shown in this [short video](#). You may want to have your photo (a jpg or png file) and LinkedIn sign-in information handy, but these are optional. 
- 4 Check out these networking [beverage recommendations](#) for evening refreshments you can make.
