

# Responding to the Proposed Statewide Trash Amendments

A CASQA Webinar  
Tuesday, July 29, 2014

Geoff Brosseau, CASQA

# Welcome & Need to Knows

- \* Purpose

- \* Webinar is not about the proposed Amendments per se or about commenting on the proposed Amendments
- \* Webinar is about responding to the proposed Amendments. Assumes the Amendments:
  - \* Adopted in a form close to what is proposed
  - \* Translated into your permit requirements

- \* Ground rules

- \* Large number of participants – on mute system
- \* 2 Hosts and 3 Panelists – audible

# Need to Knows

- \* Questions
  - \* All taken at the end
  - \* Type questions into the chat box – lower right of screen
- \* Content availability
  - \* PowerPoints
  - \* Recording

# Hosts and Panelists

- \* Erik Dixon – RBF Consulting : Technical Host
- \* Geoff Brosseau – CASQA : Program Host
  
- \* Linda Lee Miller – County of Los Angeles : Panelist
- \* Donna Toy-Chen – City of Los Angeles : Panelist
- \* Chris Sommers – EOA, Inc. : Panelist

# Proposed Compliance Tracks

**Table 1. Overview of Proposed Compliance Tracks for NPDES Storm Water Permits.**

	Track 1	Track 2
<b>NPDES Storm Water Permit</b>	MS4 Phase I and II  IGP/CGP*	MS4 Phase I and II  Caltrans IGP/CGP*
<b>Plan of Implementation</b>	Install, operate and maintain full capture systems in storm drains that capture runoff from one or more of the priority land uses/facility/site.	Implement a plan with a combination of full capture systems, other treatment controls, institutional controls, and/or multi-benefit projects with same performance results of Track 1 with the MS4 jurisdiction/significant trash generating areas/facility/site.

# Proposed Compliance Tracks (cont')

<b>Time Schedule</b>	10 years from first implementing permit but no later than 15 years from the effective date of the proposed Trash Amendments.**	10 years from first implementing permit but no later than 15 years from the effective date of the proposed Trash Amendments.**
<b>Monitoring and Reporting</b>	Demonstrate installation, operation, and maintenance of full capture systems.***	Develop and implement set of monitoring objectives that demonstrate mandated performance results, effectiveness of the selected combination of treatment and institutional controls, and compliance with the equivalency to Track 1.***

\* IGP/CGP permittees would first demonstrate inability to comply with the outright prohibition of discharge of trash.

\*\* IGP/CGP permittees would demonstrate full compliance with deadlines contained in the first implementing permit.

\*\*\* No trash monitoring requirements for IGP/CGP, however, IGP/CGP permittees would be required to report trash controls.

# Thank you
