

About: The list below compiles existing municipal stormwater fees and charges. It is compiled from three primary sources: 1) research by SCI, Inc., 2) research by the USEPA Region 9 Environmental Finance Center at CSU-Sacramento's Office of Water Programs, and 3) the Western Kentucky University Stormwater Utility Survey, conducted by the School of Engineering and Applied Sciences.

The compiled sources are a wide-ranging survey, but not intended to be comprehensive of all existing fees. Results are standardized to the best extent possible in combining the multiple sources, but not inflation-adjusted for inflation. Reported rates are for majority of residential customers for rate structures with multiple tiers, and reported at time of passage or enactment (SCI or OWP sourced-entries) or current year (WKU sourced).

Abbreviations: ERU = Equivalent Residential Unit, NI = Not Identified, NA = Not Available

County	Jurisdiction	Status	Fee Basis	Monthly Unit Rate (Residential)	Year	Funding Mechanism	Source
Alameda	Albany	NA	Fixed	\$3.47	1992	NI	WKU
