Meeting fee includes lunch. CASQA is a 501(c)(3) non-profit corporation. CASQA Tax Identification Number: 55-0797265.
Refund Policy: No refund available, but substitution of the attendee or viewer is allowed without charge or deadline.

Integrated Water Management: Changing Paradigms to Address Today’s
(Storm)Water Challenges and the Southern California / South Australia Nexus

I. Welcome / Introductions / Announcements
   Richard Boon, Chair
   (9:30 – 9:45)

II. Executive Director’s Report
    Geoff Brosseau, Executive Director
    (9:45 – 10:00)

III. Stormwater Compliance Evolution Toward Integrated Watershed Management
     Susan Lien Longville, Board Member, Santa Ana Regional Water Board
     Kurt Berchtold, Executive Officer, Santa Ana RWQCB
     (10:00 – 10:45)

IV. SoCal Case Examples: Los Angeles, Orange and San Bernardino Counties
    Mike Antos, Programs Director, Council for Watershed Health
    Bruce Phillips, P.E., Senior Vice President, PACE
    Robert Tincher, Manager of Engineering and Planning, San Bernardino Valley Municipal Water District
    (10:45 – 11:15)

V. State and Federal Reports
   USEPA, State Water Board, and Regional Water Boards
   Lunch
   (11:15 – 12:30)

VI. SoCal and Australia: UC-Irvine Water Partnerships for International Research and Education (PIRE)
    Stormwater Capture & Treatment, Urban Water Governance & Urban Water Economics
    Prof. Stanley Grant, UC-Irvine
    Prof. David Feldman, UC-Irvine
    Prof. Ana Deletic, Monash University
    Prof. Richard Ambrose, UC-Los Angeles
    Dr. Vincent Pettigrove, Univ. of Melbourne
    Tim Fletcher, University of Melbourne
    Dr. Angus Webb, University of Melbourne
    Break
    (12:30 – 2:45)

    PIRE Panel Discussion
    (2:45 – 3:00)

    Lunch
    (3:00 – 3:45)

VII. Closing
    Richard Boon, Chair
    (3:45 – 4:00)

The content of presentations by individuals and organizations other than CASQA has not been officially reviewed, approved, or endorsed in any way by CASQA or any of its employees or agents.
Any opinions or conclusions expressed in the presentations are the opinions and conclusions of the speakers and are not necessarily the opinions or conclusions of CASQA or any of its employees or agents.
Integrated Water (Cycle) Management is widely seen as the means for solving the challenges of increasingly stringent water quality regulations and the water supply demands of a growing population. It has long been practiced in other areas of the world and is now being championed by EPA and California water leaders. Integrated Water Management requires collaboration among key water resources areas such as drinking water supply, wastewater treatment, flood management, and water quality protection to leverage resources and create multi-benefit projects.

This workshop will provide you with key insights both into the latest planning and practice of Integrated Water Management in two water-stressed regions of the world - Southern California and South Australia.
